Index to volume 22

Mullins, G.L. and Sikora, F.J.: Field evaluation of commercial monoammonium phosphate fertilizers 1

Overman, A.R. and Wilkinson, S.R.: Estimation of phosphorus and potassium concentrations in Bermudagrass 7

Ernani, P.R. and Barber, S.A.: Comparison of P-availability from monocalcium and diammonium phosphates using a mechanistic nutrient uptake model 15

Sarandon, S.J. and Caldiz, D.O.: Effects of varying nitrogen supply at different growth stages on nitrogen uptake and nitrogen partitioning efficiency in two wheat cultivars 21

Verma, T.S. and Bhagat, R.M.: Zinc and nitrogen interaction in wheat grown in limed and unlimed acid alfisol 29

Zacherl, B. and Amberger, A.: Effect of the nitrification inhibitors dicyandiamide, nitrapyrin and thiourea on *Nitrosomonas europaea* 37

Short communication Carlier, L., Baert, J. and De Vliegher, A.: Use and efficiency of a liquid nitrogen fertilizer on grassland 45

Fertilizer Technology Research

AL-Kanani, T., Mackenzie, A.F. and Blenkhorn, H.: The influence of formula modifications and additives on ammonia loses from surface-applied urea-ammonium nitrate solutions 49

Announcements 61

Hassan, Z.A., Young, S.D., Hepburn, C. and Arizal, R.: An evaluation of urea-rubber matrices as slow-release fertilizers 63

Agbenin, J.O., Lombin, G. and Owonubi, J.J.: Effect of boron and nitrogen fertilization on cowpea nodulation, mineral nutrition and grain yield 71

Bolland, M.D.A. and Gilkes, R.J.: Rock phosphates are not effective fertilizers in Western Australian soils: a review of one hundred years of research 79

Jarvis, R.J. and Bolland, M.D.A.: Placing superphosphate at different depths in the soil changes its effectiveness for wheat and lupin production 97

Hagin, J., Rajan, S.S.S., Boyes, M.K. and Upsdell, M.: Partially acidulated phosphate rocks: phosphorus release characteristics 109

Sharma, B.D., Kar, S. and Cheema, S.S.: Yield, water use and nitrogen uptake for different water and N levels in winter wheat 119

Pal, A.R., Motiramani, D.P., Gupta, S.B. & Bhargava, B.S.: Chlorosis in sugarcane: associated soil properties, leaf mineral composition, and crop response to iron and manganese 129

Zacherl, B. & Amberger, A.: Effect of nitrification inhibitors on N-fixing bacteria *Rhizobium leguminosarum* and *Azotobacter chroococcum* 137

Malhi, S.S. & Nyborg, M.: Efficiency of fall-applied urea for barley: influence of date of application 141

Dijksterhuis, G.H. & Oenema, O.: Studies on the effectiveness of various sulfur fertilizers under controlled conditions 147

McCaskill, M.R. & Blair, G.J.: A model of S, P and N uptake by a perennial pasture. *1. Model construction* 161

McCaskill, M.R. & Blair, G.J.: A model of S, P and N uptake by a perennial pasture. *2. Calibration and predictions* 173

Barrow, N.J. & Mendoza, R.E.: Equations for describing sigmoid yield responses and their application to some phosphate responses by lupins and by subterranean clover 181
